TCP Shock and Anti-Roll Bar Packages

Total Control Products offers a selection of direct-replacement front and rear suspension upgrade packages for classic Mustangs and related models. Kits include front and rear anti-roll bars matched with VariShock Bolt-Ins, a line of high-quality OEM-replacement shock absorbers. Front bars include billet-aluminum chassis mounts and urethane bushings. Rear bars are axle-mounted and feature three endlink adjustment holes to vary the bars spring rate. VariShock billet-aluminum shocks are included in the package and are available as factory-valved or 16-position single- or 256-setting double-adjustable versions to fine tune ride quality and handling performance. Installation takes just a few hours may require drilling and minor trimming to mount the components.

VariShock Bolt-Ins

- Direct-fit OEM replacement shock
- Factory-valved, single- or double-adjustable

Anti-Roll Bars

- Heat-treated alloy steel
- Front and rear anti-roll bars
- Billet-aluminum chassis mounts
- Polyurethane pivot and endlink bushings
- Silver-vein-hammertone powder-coat finish.

VariShock Bolt-Ins

VariShock Bolt-Ins offer an affordable and versatile, high-end performance improvement over OEM replacements and traditional twin-tube shock absorbers. Our updated design overcomes the major shortcomings of traditional gas shocks and low-end twin-tube shocks. VariShock Bolt-Ins bring a more usable adjustment range and response curve, improved heat dissipation, and lightweight billet-aluminum construction to production vehicles using factory mounting locations. On the street or strip, VariShock offers the ultimate direct-replacement shock absorbers!
