TrueCenter™ Pivot Socket Lower Control Arms

Our TrueCenter™ pivot socket lower control arms improve suspension geometry by precisely controlling the balljoint travel arch. A spherical bearing with high-strength polymer races, create a deflection free, low friction pivot point, capable of safely handling caster settings beyond the ability of rubber or polyurethane bushings. The spherical bearing is 80% larger in diameter than our previous rod end and specifically matches the chassis mount eliminating any need for additional spacers. Bearing preload is maintained with a threaded retaining ring and is secured by a locking set screw. A lubrication zerk fitting is easily accessible at the bottom of the housing. The 1-1/4" shank socket housing and 1-1/8 x .156" wall steel tubes meet at a high strength overlapping robotic spray-arc welded joint. Balljoint and mid-plates made from 1/4" steel eliminate deflection at the spindle and anti-roll bar attachment points. Premium quality, screw-in balljoints are used and can be replaced as necessary. Arms are shipped fully assembled and include grade 8 mounting hardware.

Features

- TrueCenter™ pivot socket maintains accurate balljoint travel arch
- Low friction polymer bearing races provide linear resistance, leaving spring rate unaffected for improved suspension tuning
- High strength arm structure eliminates deflection at balljoint and anti-roll bar mounts
- Direct bolt-on installation to frame and factory or aftermarket strut rod
- Completely serviceable for lubrication and free-play within the pivot assembly

¹ - Must upgrade to V8 spindle

Lower Control Arm Accessories

Heavy-Duty Screw-In Balljoints

Sold in pairs, these premium screw-in balljoints include rubber dust boots, zerk fittings, and stud hardware.

6104

Balljoint Wrench

Our zinc-plate, laser-cut steel balljoint wrench takes the hassle out of dealing with uncommon OEM drive feature of screw-in balljoints.

6711

Part Number	Description
6104	Replacement screw-in balljoints with boots and hardware (pair)
6711	Screw-in balljoint wrench, zinc plated steel

All prices subject to change. Current pricing available at www.cachassisworks.com.
